

Dominosteine locomotive

Mix powdered sugar and lemon juice until smooth. Use this frosting like glue to stick two Dominosteine side by side on a Spekulatius cookie. On top of one of the two Dominosteine, stack a second domino, as well as a chocolate chip as a locomotive roof. Attach the Smarties to the sides like wheels, glue one to the front of the locomotive. Attach the nougat stick to the front Dominosteine as a „chimney“. Finally, sprinkle with coconut flakes and powdered sugar snow.

Of course, the locomotives can be decorated colorfully as you like.

Ingredients

Makes 8 pieces

100 g powder sugar

1 tbsp lemon juice

8 Spekulatius cookies or butter cookies

24 Dominosteine

54 Smarties

8 thin chocolate chips or cookies with chocolate coating

8 nougat sticks

Coconut flakes

Powder sugar
